Admin — Products

Module: Admin / Products | QSA Industries ERP — Data Entry Reference

Overview

Manage the product catalogue: finished goods (sellable) and raw materials. Products drive orders, stock, production and purchase orders.

Notes

- Raw materials (sellable=false) feed production runs and purchase orders.

Fields

Field	Type	Required	Description
Name	text	Yes	Product display name.
SKU	text	Yes	Unique stock-keeping code.
Category	text	No	Product category (e.g. Finished Goods, Raw Material).
Unit of measure	text	No	e.g. bag, kg.
Price	number	No	Base list price.
Low stock threshold	number	No	Reorder point; triggers low-stock alerts when stock falls below.
Sellable	boolean	Yes	Whether the product can be ordered by dealers.
Active	boolean	Yes	Inactive products are hidden from ordering and production.

How to feed data

1. Open Internal → Admin (or /internal/admin).
2. Click 'Create new' / add product, fill the fields above and submit.
3. Verify the product appears in the products list and in dealer catalog if sellable.
